

THE KEITH®

# CLEENSWEEP TARP SYSTEM

An Innovative Accessory for WALKING FLOOR Unloaders.

## THE KEITH® CLEEN SWEEP TARP SYSTEM

Cleans your trailer floor as you unload.

**KEITH®**  
**WALKING FLOOR®**  
MATERIAL HANDLING TECHNOLOGY

## FEATURES

- **LIGHTWEIGHT**
  - System weighs approximately 45-50 lbs/20-23kgs (with tarp).
  - Takes up virtually no payload.
  - No special top rail extrusions required.
- **RUGGED DESIGN**
  - Powered by a strong motor.
  - Includes auto-brake system.
- **QUICK & EASY**
  - Floor is cleaned as the trailer unloads.
  - Cleans floor up to 10 minutes faster than sweeping with a broom.
  - System resets in seconds with the push of a button.
- **INCREASES DRIVER PRODUCTIVITY & SAFETY**
  - Automated tarp system allows driver to get back on the road quickly.
  - Eliminates brooms and manual tarps, reducing risk of knee or back injuries.
- **IMPROVES EFFICIENCY**
  - Avoid payload cross contamination between loads.
  - Boost fuel efficiency through effective trailer clean-out.

*KEITH, the creator of WALKING FLOOR® technology, provides custom unloading systems for specialized applications worldwide.*

*Patents Pending and Applied For.*

## IDEAL FOR UNLOADING

- Wood Products
- Grain
- Soil
